25) Before discussing the various opinions received from Dt Boards & Mc Councils regarding the adjustment of dispensary charges, it is necessary to give a brief resume of the procedure of previous orders & correspondence

29) ~~The charges~~ By the order dd 9th July 1904, Govt ordered that all the provisions entered in the D.F & M.C budgets should be treated as Contribution to the Prov! Med! budget, the average actual of three years being entered in the D.F & Mc budgets.

A Under rule 109 of L.B. rules, these should be transferred to the credit of Med! Dept by issue of a monthly cheque for 1/12th of the budgeted amount. In enable the Presidents of Dt Bds & Mc Boards to enter correct & necessary provisions in their budgets, the Senior Surgeon was requested by Govt in their order dd 3-11-06 to furnish the Presidents with detailed statements showing the amount required on account of each of the items of Dispensary charges. A further change ~~This is the procedure previously~~ was made in August 1907 whereby actual charges only relating to the purchase of Country Medicines would be debited, at the end of each

		(Order of 2nd Aug 1907) Official year against the local Boards
y		30) This is the procedure prescribed
		by Standing Orders of Govt regarding the
		adjustment of the charges. This procedure
		seems to have been departed from to the
		extent that actual expenditure in respect
		of Country medicines, bedding & clothing
		& some other variable items was
		by the Comptroller in the final accounts.
		This does not seem to be based upon any
		Govt order but was evidently due to
		the fact that the Senior Surgeon was
		keeping detailed accounts of actual
		Expenditure under these heads. In his
U	h.o	note dt 18-3-10, the Comptroller relies on
y		Govt order dt 2-8-1907 & this practice.
		But that order relates only to Country
		medicines & cannot be taken to apply to
		other items also. However, in accordance
		with this practice, the Comptroller issued
R		a Circular dt 28th Jan 1910 in which
		it was stated that the Contributions on
		account of establishment, TA, Diet & Fixed
		Contingencies should be adjusted monthly
		by issue of cheque to the credit of Med.

Office. It was pointed out in the Note to L B file No 244 of 09 that this Circular was opposed to the Standing Orders & it was then ordered by Govt that before this procedure proposed by the Govt Comptroller is accepted by Govt the opinion of local bodies should be called for.

3) The local bodies have now furnished their opinions & it is seen that the majority of Dt Boards & Mul Boards are in favour of the procedure suggested by the Comptroller. A few of the bodies including the Dt Board of Kadur are of opinion that only the actual charges whether of fixed or varying items should be charges to the local boards concerned.

3a) The most convenient course seems to be the one prescribed in the order of 1904 treating the Local board throughout as Contributors. It will save considerable labour & adjustment; and as the estimates ~~are~~ to be entered are the average actuals of three years, the discrepancy between the estimate & actual charge will not be great. The objection urged against this course seems to be that any savings will lapse to the Govt budget but not to

to the local boards. This objection was first raised by the Dt Board of Hassan in Admn reports for 1907-08; but it was found that the Board was not correct as to the facts on which they based their Complaint. If the estimates are properly framed, there is not any likelihood of it to be their being wide of the actual expenditure. There are no data now for assuming that there is wide divergence at present between the estimates & the actuals.

33) If however Govt consider that the principle enunciated by the Comptroller that the local Boards should be made liable only for the actual charges incurred in their behalf is a sound one then the proposals of the Comptroller may be accepted. He points out that as regards establt & other fixed charges the variation between actuals & budget provisions will not be large & that separate accounts under these items cannot be maintained by the Sanitary Surgeon without much labour. Hence these charges may be ~~treated as contingencies~~ adjusted as proposed, while charges relating to the varying items may be adjusted at the close of the year after ascertaining the

Actual Expenditure.

34) The view expressed by some of the boards that all the charges should be debited only at the close of the year does not appear to be quite sound. It is open to three objections (1) it will involve extra labour in keeping District accounts of each dispensary under each head (2) It means that Govt have to advance one year's expenditure in connection with dispensaries in full (3) & it will not enable the Prests to know, until the year is over, what their financial condn is & how they stand. If the actual charges at least are debited month by month, their more or less actual financial condn will be known to the Prests.

35) It is therefore submitted that the procedure suggested may be adopted. The Comptroller may be asked whether even in the case of varying charges, they may not be debited to the Boards as the expenditure is incurred, by requiring the bills to be sent to the Prests for issue of necessary cheques. This last course will have two advantages not only of (viz) the charges will be debited to the boards as they are

40) The course suggested in para 35 of the Secretariat notes has much to recommend it. The Supplying Department - the Medical Stores - will get its dues at once and the Boards will pay for their purchases promptly. The arrangement leaves nothing to be desired. There can be no objection on the part of the Senr Surgeon for sending bills along with articles, claiming payment. There is no need for deferring payment or adjustment until after the close of the year or for extending the unsatisfactory Contribution System to Charges on account of Supplies. It is best to require the Senr Surgeon to claim payment as soon as Supplies are made and the Boards to pay as soon as Supplies are made.

43) The procedure suggested in para 35 of the Secretariat notes in respect of the adjustment of the varying charges of the Local Fund Dispensaries may have much to recommend it theoretically, but in the practical working of it I apprehend difficulties. The suggestion amounts to this, that, as each indent from the Dispensaries is attended to at the Medical Stores, the cost of the articles so supplied should be recovered from the several Presidents concerned on presentation of bills and vouchers. Two things must be considered in dealing with the suggestion. First, the mode of

Encl: 1

of receiving supply at the Stores, and secondly the mode of retailing it to the various Dispensaries on individual indents. The Medical Stores at present receives the articles wholesale from the Contractor and pays him as soon as articles are delivered. If, on the other hand, bills are to be made out at the Medical Stores against the numerous Institutions as each supply is made, the process of receiving and distributing supplies at the Stores has to be entirely changed. To work out the dues against each of them involves a regular maintenance of a series of accounts at the Stores, the chief of which is a ledger for each Dispensary. Instead of a wholesale purchase from the Contractor the Medical Stores will have to get its supplies as each Dispensary sends its indent and the cost of each such supply recouped by bills as suggested. No Contractor can agree to supply things to the Stores in this way, for, practically he has to maintain a go-down at his own risk and keep on retailing out articles every day almost. Again adjustments by cheques as a rule involve no small amount of correspondence and delay. For instance, certain articles of furniture were supplied to the new Female Dispensary at Chickaballapur two years ago, and the cost still remains unadjusted though the man that supplied has ceased

ceased to be our Contractor. At any rate it is clear that by the process suggested and agreed to by the Comptroller, the Contractor cannot be paid as soon as he expects. Two ways are only feasible-either the charges must be met out of the State funds in the first instance subject to recoupment at the close of the year on knowing the actuals, as is being done now, or the contributions themselves in a lump should be transferred from the Municipal and District Funds to the Medical Budget in the beginning of the year.

Two alternative courses - Prabhakara Shastri

? 2 Wait

44) In a former communication No. 1097-L.A.D 138 dated 10th August 1912 to this office of which a copy is enclosed, the Comptroller has expressed himself decidedly in favour of the second of the above alternatives, although he seems to be have considerably changed since.

45) Between the actuals and the annual contributions from the several local bodies there has not been much difference. In fact, if individual Institutions are taken into account, some of them may even be found to consume more than they pay for. Therefore the unsatisfactory aspect of the contribution system whatever it may be need not concern us.

Stand all Govt.

46) In conclusion, I beg to state that should there be any innovation in the adjustment of these varying charges of the several Dispensaries in the State, I am in favour of the second of the courses referred to at the end of the first para of my note, on account of its simplicity of operation.

48) With reference to your letter No.49 dated 8th July 1912 in re:- the adjustment of the cost of country medicines &c supplied to Local Fund Dispensaries, I have the honor to state the change in the mode of final adjustment of these charges upon which your opinion is sought for, does not in any way affect the existing practice of incurring charges on account of country medicines etc., or of paying the Contractor's bills. Necessary provision for ~~each~~ single expenditure will be made as heretofore in the State Budget, and according to the requirements of each Dispensary, charges will be incurred and paid by you out of the said provision. The only change in the method of accounting under the proposed arrangement of transfer of budget provision in regard to the cost of country medicines etc., also will be that the ~~precedents~~ Presidents themselves do credit to the Medical Department the estimated amount of such charges for the year, before the year is out instead of the adjustment being made in this office after the receipt of the detailed statement of actual charges incurred from your office.

from the Treasuries in the same way as establishment and travelling allowance claims (which latter cannot also be strictly termed fixed charges), and that the Senior Surgeon does not maintain any accounts to show the exact amount incurred in respect of each dispensary under these two heads. All the charges enumerated under items 8 to 11 are incurred through the Medical Stores and it is easy and convenient to claim from the Local Funds only the actual cost incurred by Government. But so long as the contribution system is continued and the dispensary charges are required to be incurred by the State Medical Department out of contributions received from local bodies, the transfer of lumpsum grants based on the actual expenditure of some years seems to be the best course. The figures now being entered in the annual estimates are arrived at on this principle.

65) If, however, the bills in respect of these two charges are presented for payment to the Presidents concerned instead of by Treasury Officers the debit of the actual charges will be possible. Subject.

Furnishing opinion regarding the procedure to be adopted in adjustment of the expenditure under the several items in Local Fund Dispensaries.

I have the honour to state that in pursuance of the above official memorandum the several Municipal Boards were required to furnish a copy of their resolutions on the subject and herein enclosed. From the replies thus received it is apparent that except the Municipal Board of Arsikere all the others are in favor of adopting the Comptroller's suggestion while the Municipal Board of Arsikere, without assigning any reasons therefor, have expressed an opinion that the existing practice may as well be continued.

2. The matter was also placed before the Hassan District Board at their meeting held on 3rd and 4th August 1911 when they passed a resolution that they

they are in favor of the new procedure suggested provided that the expression "actual expenditure" does not extend to expenditure in excess of sanctioned budget allotments which should not be exceeded without consulting the District Board, and that the Comptroller will furnish the District Board with details of expenditure debited to District funds at the close of each official year.

Copy of the resolution is enclosed.

Charges of both the fixed and varying items should be debited to the local bodies concerned. Some of the Boards are also of opinion that all the charges relating to L.F. dispensaries should be adjusted only at the close of the year and the details of expenditure intimated to them.

3. Government are of opinion that the District and Municipal Boards should be liable, as far as possible, only for the actual expenditure incurred on their behalf. But as pointed out by the Comptroller the application of this principle to all the items of dispensary charges will involve extra labour out of all proportion to the benefit resulting therefrom. Moreover, so far as Establishment and other Fixed Charges are concerned, the variation between the actual expenditure and the Budget provision will not be large.

Government consider that the best method is for the Medical stores supplying the articles, to send bills along with them so as to enable the Presidents to immediately issue Cheques on account of the bills. The Senior Surgeon seems however to think that this arrangement will cause some inconvenience in ordering supplies from Contractors and paying them. There need be no such inconvenience. The grant required for purchasing articles for supply to the L.F. dispensaries will be provided for under "Medical Stores" and the Senior Surgeon will draw money to pay the Contractors supplying the above articles in the same way as he does while purchasing articles for Government hospitals. The Wholesale purchase of articles from the Contractor will continue and their supply to the various institutions will be made on indents.

(4) The several communications from the Presidents of the District and Municipal Boards of the several districts forwarding (in reply to this office memo. No.655-62/ L.B.244-09-3 dated the 21st July 1910) the opinions of the several local bodies in -

1173

in regard to the procedure suggested in the Comptroller's Circular.

Order thereon No. 778 SS 72-10 dt 2nd July.

Dated, Bangalore, 2nd February 1913.

The procedure laid down in the Govern -ment Orders read above, regarding the - adjustment of dispensary charges has been departed from to the extent that the ac- tual expenditure in respect of Bedding & Clothing, Furniture, Midwives' Articles & Country Medicines is adjusted by the Comp -troller in the final accounts after the close of the year. This deviation, seems - to have been the result of the Senior - Surgeon keeping detailed accounts of ac- tual expenditure in each dispensary under these heads.

2. The majority of the District and Mu- nicipal Boards are in favour of the pro- cedure enunciated by the Comptroller in - his circular while a few Municipal Boards in the Shimoga and Kadur Districts and - the District Board of Kadur are of opinion that

that only the actual charges of both the fixed and varying items should be debited to the local bodies concerned. Some of the Boards are also of opinion that all the charges relating to Local Fund Dispensaries should be adjusted only at the close of the year and the details of expenditure intimated to them.

3. Government are of opinion that the District and Municipal Boards should be liable, as far as possible, only for the actual expenditure incurred on their behalf. But, as pointed out by the Comptroller the application of this principle to all the items of dispensary charges will involve extra labour out of all proportion to the benefits resulting therefrom. More-over, so far as Establishment and other fixed charges are concerned, the variation between the actual expenditure and the Budget provision will not be large. The suggestion of some of the Local Boards that only the actual charges not only of varying but also of fixed items should be debited

Controllers note 124 dated 18 mar 1912

debited to them does not, therefore, commend itself to Government. They are, therefore, pleased to direct that as regards fixed charges such as Establishment, House Rent and Fixed Contingencies, the course suggested by the Comptroller in para 2(i) of his circular No. L.F.378 dated 28th January 1910, should be adopted and that, as regards varying charges, only the actual cost incurred should be debited to the local bodies concerned.

4. The next point for consideration is regarding the method of adjustment of these varying charges. Government consider that the best method is for the Medical Stores supplying the articles, to send bills along with them so as to enable the Presidents to issue cheques immediately on account of the bills. Adjustment by means of cheques ought not to increase correspondence and occasion delay, if the preliminaries are properly worked out. Nor need it disturb the present arrangement regarding the supplies. (The wholesale purchase

The present arrangement of the adjustment being made in the Comptroller's office once a year on receipt of detailed statements of supplies made by the Medical Stores to all local fund dispensaries is found inconvenient -

Para 35 of the note.

The Senior Surgeon seems however to think that this arrangement will cause some inconvenience in ordering supplies from Contractors and keeping them - There need be no such inconvenience - The funds required for purchasing articles required for supply to the Local fund dispensaries will be provided for in the budget under Medical Stores and the Senior Surgeon will have money to pay the Contractors supplying medicines in the same manner as he does for purchases in particular such as he does for purchases in particular

purchase of articles from the contractor will continue and their supply to the various institutions will be made on indents.

It is expected that by this arrangement, the supplying Department, viz., the Medical Stores, will recover its dues at once, leading to much simplification in accounting. The Comptroller is, therefore, requested to issue necessary instructions in modification of para 2(ii) of his circular dated the 28th January 1910.

5. The charges on account of construction and repair of dispensary buildings shall continue to be adjusted in accordance with the instructions laid down in Government Proceedings No. 3891-902/L.B. 112-08-2 dated the 28th October 1908.

3. Comptroller's Circular L. F. No. 378, dated the 28th January 1910, issuing the following instructions to the Presidents of the several District Boards in regard to the adjustment of the dispensary charges.

(i) That contributions on account of establishment, travelling allowance, dieting charges and fixed contingencies should be adjusted monthly by issue of cheques by the Presidents in favour of the Treasury Officer for 1—12ths of the amount provided therefor in the budgets for credit to the Medical Department.

(iii) That contributions on account of construction and repair of Local Fund dispensaries should be adjusted by the Presidents as laid down in Government Proceedings No. 3891-902—L. B. 112-08-2, dated the 28th October 1908.

4. The several communications from the Presidents of the District and Municipal Boards of the several districts forwarding (in reply to this office memo No. 655-62—L. B. 244-09-3, dated the 21st July 1910), the opinions of the several local bodies in regard to the procedure suggested in the Comptroller's circular.

No. 7-18—L. B. 72-10-19, DATED BANGALORE, 2ND JULY 1913.

ORDER THEREON.—The procedure laid down in Government Orders read above, regarding the adjustment of dispensary charges has been departed from to the extent that the actual expenditure in respect of bedding and clothing, furniture, midwives' articles, besides country medicines is adjusted by the Comproller in the final accounts after the close of the year. This deviation seems to have been the result of the Senior Surgeon keeping detailed accounts of actual expenditure in each dispensary under these heads.

2. The majority of the District and Municipal Boards are in favour of the procedure enunciated by the Comptroller in his circular, while a few Municipal Boards in the Shimoga and Kadur Districts and the District Board of Kadur are of opinion that only the actual charges of both the fixed and varying items should be debited to the local bodies concerned. Some of the Boards are also of opinion that all the charges relating to Local Fund Dispensaries should be adjusted only at the close of the year and the details of expenditure intimated to them.

3. Government are of opinion that the District and Municipal Boards should be liable, as far as possible, only for the actual expenditure incurred on their behalf. But as pointed out by the Comptroller the application of this principle to all the items of dispensary charges will involve extra labour out of all proportion to the benefits resulting therefrom. Moreover, so far as establishment and other fixed charges are concerned, the variation between the actual expenditure and the budget provision will not be large.

The suggestion of some of the Local Boards that only the actual charges not only of varying but also of fixed items should be debited to them does not, therefore, commend itself to Government. They are, therefore, pleased to direct that as regards fixed charges such as establishment, travelling allowance, house rent, fixed contingencies, diet to patients and rewards for extra labour cases, etc., the course suggested in para 2 (i) of the Comptroller's circular No. L. F. 378, dated the 28th January 1910, should be adopted and that, as regards varying charges, only the actual cost incurred should be debited to the local bodies concerned.

Local Fund and Sanitary (Local Boards), dated 2nd July 1913.

4. The next point for consideration is the method of adjustment of these varying charges. The present arrangement of the adjustment being made in the Comptroller's Office once a year on receipt of detailed statements of supplies made by the Medical Stores to all Local Fund Dispensaries is found inconvenient. Government consider that the best method is for the Medical Stores supplying the articles, to send bills along with them so as to enable the Presidents to immediately issue cheques on account of the bills. The Senior Surgeon seems however to think that this arrangement will cause some inconvenience in ordering supplies from contractors and paying them. There need be no such inconvenience. The grant required for purchasing articles for supply to the Local Fund Dispensaries will be provided for under "Medical Stores" and the Senior Surgeon will draw money to pay the contractors supplying the above articles in the same way as he does while purchasing articles for Government Hospitals. The wholesale purchase of articles from the contractor will continue and their supply to the various institutions will be made on indents. It is expected that by this arrangement, the supplying department, *viz.*, the Medical Stores, will recover its dues at once, leading to much simplification in accounting. The Comptroller is therefore requested to issue necessary subsidiary instructions in modification of para 2 (ii) of his circular dated the 28th January 1910, regarding the adjustment of cheques issued by the Presidents for the supply of articles made to the Local Fund Dispensaries and the stock and other accounts to be maintained by the Senior Surgeon in respect of these articles.

5. The charges on account of construction and repair of dispensary buildings shall continue to be adjusted in accordance with the instructions laid down in Government Proceedings No. 3891-902—L. B. 112-08-2, dated the 28th October 1908.
